

# Student Internship Opportunity

## Innovation Intern

### Job Description

The Innovation Intern student internship at UNM Rainforest Innovations provides a combination of experiences, including learning about the field of technology transfer (intellectual property and commercialization). Student interns have the opportunity to learn about new, emerging technologies, conduct in-depth research, prepare marketing materials, expand knowledge of technology transfer and economic development through educational seminars, as well as interact with local entrepreneurs and investors. This position will benefit anyone that would like to get a better understanding of the intersection of business, science, and law.

### Position Location

This position currently offers candidates the opportunity to work remotely – where they will need access to a computer, Microsoft Office 365, and a reliable internet connection. Cubicle space is also available should the candidate choose to work hybrid or entirely in the office.

### Student Internship Assignments May Include:

- Prior art searching
- Drafting non-confidential and technology portfolio summaries
- Conducting market analysis and identifying potential licensees for new technologies
- Recording marketing activities and interactions
- Working with start-up companies through our Joseph L. Cecchi VentureLab
- Other special projects

### Qualifications

Candidates must be students enrolled at the University of New Mexico (min. of 6 credit hours) for the duration of the internship and maintain a minimum 2.5 GPA. Candidates for this position should be adept at computer skills, must have great organization skills and be keen to detail. In addition, they must be dependable with a strong work ethic and be able to work with minimal supervision.

### Compensation

This student internship is part-time (15-20 hours) on a semester-by-semester basis at an hourly wage rate of \$16/hr. The employment period is for the Fall/Spring semester with the possibility of continued employment through the summer.

### How to Apply

Email your cover letter and resume as a pdf or word document(s) to the contact below with the subject line, "Innovation Intern."
